EXPERIENCE

2018 — 2019

Frontend developer

NDA

PWA (interview helper) in Vue: structure, pages, new features. Vuex, Vuetify, Firebase.

Vue

Vuex

Firebase

PWA

2019 — 2020

Programmer

EPAM Systems

CRM (SPA) in Angular: new features and components, unit tests. RxJS, Redux, Jasmine.

Angular

RxJS

Redux

Jasmine

2020 — 2021

Frontend developer

NDA

Internal warehouse system: structure, pages, route guards, database integration. React, MongoDB, Heroku.

React

MongoDB

REST API

Heroku

2021 — 2022

Programmer

СБЕРКОПУС

SPA "PPRB Equity Products": component development, feature maintenance, Agile (Scrum). React, Redux Toolkit.

React

Redux Toolkit

REST API

Scrum

2022 — present

Frontend developer

ITFB Group

SPA "PPRB Equity Products": microservice architecture, Cypress tests. I combine development with scrum mastering: daily stand-ups, retros, backlog grooming. React, Redux Toolkit.

React

Redux Toolkit

TypeScript

Cypress

Scrum

PERSONAL PROJECTS

The Survival of Sarah Rose

Full Russian localization and AI voice-over of a visual novel (Ren'Py, Steam): 68,254 lines translated, 75+ cloned voices, emotion-aware delivery in RU and EN.

W40KRT Audio Direct Mod

Russian neural voice-over mod for Warhammer 40,000: Rogue Trader: Qwen3-TTS voice clone, 21k+ lines, 23 characters. Unity Mod Manager.

angular-nabludenie-by

Angular 8 coursework: routing, layout, data handling. Old study code.

domovikx.github.io/angular-nabludenie-by/dist/angular-nabludenie-by/

vue_crm

Diploma project: CRM in Vue with a Firebase backend. Ancient legacy, my first serious work.

vuecrm200711.web.app/

I also love quality audiobooks, tabletop role-playing games and Harry Potter fanfiction

EDUCATION

VSTU, Vitebsk — software engineer, information systems, 2020

VSTU, Vitebsk — process engineer, mechanical engineering, 2006

Andersen Lab — Frontend, 2020

Rolling Scopes School — Frontend JavaScript, 2019

Languages

Russian — native · English — A2 (elementary)
